Education

SMK-IT As-Syifa Boarding School , Subang	2024 - 2027
Software Engineering	
Smp-IT Ibnul khaldun , Subang	2021 - 2024

Projects

Pelita Smart – Computer Based Test (CBT) Platform

- Built with Laravel 12 and MySQL to manage exams, questions, and users.
- TailwindCSS + AlpineJS for modern, responsive UI.
- Question Bank system (MCQ & Essay) with subject categorization per teacher.
- Real-time exam features: timer, autosave, navigation, and progress tracker.
- Import/export questions and assignments from the centralized Question Bank.
- Role-based access control for Admin, Teachers, and Students.

Quran Web Application

- Built with Native PHP, Bootstrap, and JavaScript for a responsive user experience.
- PostgreSQL database to manage Surahs, Juz, and user data.
- Landing Page with modern design and easy navigation.
- Pages for Surah list, Juz list, and full Quran reading interface.
- Integrated translation (tafsir/meaning) alongside the Quran text.
- Admin Master Page for managing content and users.

Coffee Shop POS & E-Commerce Simulation

- Built with Laravel 12, MySQL, and TailwindCSS for a modern cashier and shop system.
- Admin Dashboard to monitor users, daily revenue, sales data, and customer payments.
- Customer-side Coffee Shop simulation: browse products, add to cart, checkout.
- Integrated Midtrans Payment Gateway for secure online transactions.
- Real-time transaction records and order management for admins

E-Commerce App

- Built with Flutter + GetX and Firebase.
- Features: Onboarding, Login/Signup, Product Listing, Home, Cart, Profile, and Shopping.
- Payment gateway integration (Midtrans) not yet implemented.

Weather Web App

- Built with JavaScript (no framework) + TailwindCSS.
- Uses OpenWeatherMap REST API.
- Features: real-time weather & condition display, city/country search.

Coffee Shop UI App

- Built with Flutter for a modern and clean design.
- Features: Product Listing, Checkout, Shopping Flow, and User Profile.
- Uses dummy products from REST API for simulation.
